RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

Honorable Secretary Foxx,

I am writing to express the Utah Transit Authority's (UTA) commitment to provide funds and implementation support to the UTA TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

UTA is proud of the collaborative nature of this application and the significant positive regional impact these projects will have on our community. In collaboration with our regional partners, we have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state, and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, access to job centers, educational opportunities, and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. As the lead agency on the project, we express our commitment and strongly request that the U.S. Department of Transportation fund the TIGER application for the ICARO project. Below we have outlined the highlights of this application, including all funding commitments. Please note that this commitment of local funds is contingent on successful award of the TIGER grant.

Location	The project impacts six counties in the greater Salt Lake region: Weber, Davis, Salt Lake, Tooele, Utah, and Summit counties.
Project Description	This regional, data-driven approach addresses first/last mile concerns throughout the Utah Transit Authority's 88 miles of passenger rail and light rail stations, improving transit access in 26 cities around 36 stations.
Project Classification	Urban
Economic Status	123,774 households (approximately 23% of the total area population) in the project area live below the poverty line.
Project Lead	Utah Transit Authority
Project Partners	Utah Department of Transportation, Wasatch Front Regional Council, Mountainland Association of Governments, and the cities of: Pleasant View, Roy, Ogden, West Haven, Bountiful, Clearfield, Layton, Farmington, Woods Cross, Draper, Midvale, Murray, Salt Lake City, Sandy, South Jordan, South Salt Lake City, West Jordan, West Valley City, Provo, Lehi, American Fork, Orem, Summit County, and Tooele
Project Cost	\$87,807,342 million
Committed Funding	\$11,428,456 in local funding \$ 34,881,032 in state funding \$11,980,232 in reallocated federal funding
Funding Request	\$28,228,031 million; which results in a 68% local match
Project Benefits	<ul> <li>Safety         <ul> <li>Fills in more than 79 miles of sidewalk, trail, and bike network gaps throughout UTA's system.</li> </ul> </li> <li>Multi-modalism         <ul> <li>Is projected to increase UTA ridership by 2% or more, resulting in</li> </ul> </li> </ul>
	<ul> <li>an approximate increase of 760,000 boardings annually.</li> <li>Encourages system users to get to the station by walking, biking, or taking transit, rather than driving.</li> <li>Economic Benefits</li> </ul>
	<ul> <li>Helps communities connect planned or existing housing, commercial, and mixed-use developments to local transit stations.</li> </ul>

Thank you for your time and consideration.

Sincerely,

Jerry R. Benson

#### DEPARTMENT OF TRANSPORTATION

CARLOS M. BRACERAS, P.E. Executive Director

SHANE M. MARSHALL, P.E., Deputy Director

April 14, 2016

The Honorable Anthony Foxx, Secretary U.S. Department of Transportation 1200 New Jersey Avenue, S.E. Washington, DC 20590

Dear Mr. Secretary:

SUBJECT:

Letter of Support for UTA TIGER VIII Application: First/Last Mile Connections:

Improving Community Access to Regional Opportunities (ICARO)

I am writing to express the Utah Department of Transportation's (UDOT) strong support for the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

One of UDOT's organizational emphasis areas is Integrated Transportation, underscoring the Department's commitment to identifying transportation solutions that take cars off the road and improve mobility across modes. To this end, the suite of improvements identified in this TIGER grant application will greatly improve safety and access around transit stations, and are in line with UDOT's Active Transportation policy. Where these projects occur on state facilities and are aligned with existing or future UDOT projects, the Department looks forward to the opportunity to continually build a transportation system that safely and efficiently serves all users.

UTA's service area encompasses the four largest counties in the State, and they are the sole provider of transit services in the region. UTA, in collaboration with its regional partners, has developed a comprehensive plan to solve one of the biggest barriers to transit access, which is the need for the first/last mile connections. The ICARO project will leverage federal, state, and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch Front region, particularly in disadvantaged communities. UDOT supports the efforts of all of the project partners and strongly requests that the U.S. Department of Transportation fund UTA 's TIGER application for the ICARO project.

Sincefelv.

Carlos Braceras, P.E.

Subject: Letter of Support for First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) - TIGER VIII Application

Dear Mr. Secretary:

We are writing on behalf of the Wasatch Front Regional Council (WFRC), the Metropolitan Planning Organization for the greater Salt Lake Region and the WFRC Active Transportation Committee, in support of the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project. As the planning organization for the region the WFRC works collaboratively with many partner agencies, stakeholders and the public to make regional transportation decisions and is committed to improving northern Utah's transportation system though a balanced approach of all modes. By improving access to the regional transit system this project will increase regional mobility, improve safety and air quality, and enhance access to opportunities.

In addition to WFRC's support, our Active Transportation Committee and its members are in complete agreement with this effort. The Active Transportation Committee is made up of local elected officials and staff, UTA, UDOT, Utah Health Department, and advocacy organizations. The Committee focuses on biking and walking to improve northern Utah's multi-modal transportation system. The projects identified in this application are supported in both the Regional Transportation Plan, Utah's Unified Transportation Plan, and aligned with the goals identified by the Active Transportation Committee.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for first/last mile connections. Investing in the First/Last Mile Connections project will leverage federal, state and local funds to provide meaningful access to the transit system, improved air quality, safety, access to job centers, educational opportunities and public services for all users in the Wasatch Front Region, and has our full support.

Sincerely,

Andrew S. Gruber Executive Director

Wasatch Front Regional Council

Mayor Mike Caldwell

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

## **Honorable Secretary Foxx:**

I am writing to express Mountainland Association of Government's (MAG) commitment to provide any required matching funds for the Utah County portion of the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

MAG is home to the Metropolitan Planning Organization for the Utah County Urban Area and is a regional partner to UTA, which, in collaboration with all of its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. As a partner on the project we strongly request that the U.S. Department of Transportation fund UTA its regional partner's TIGER application for the ICARO project.

Sincerely

Andrew Jackson, Executive Director

Ben McAdams Salt Lake County Mayor

**Lori Bays** Deputy Mayor & Chief Administrative Officer 31 March, 2016

Mr. Anthony Foxx Office of the Secretary of Transportation U.S. Department of Transportation 1200 New Jersey Ave SE Washington, DC 20590

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

Honorable Secretary Foxx:

I am writing to express Salt Lake County's commitment to provide \$1,000,000 in matching funds towards projects in Salt Lake County that can meet the local match needs of the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

Salt Lake County, as the regional government for 1.1 million people, has demonstrated over a number of years a commitment to coordinated transportation needs within the county. Salt Lake County plays an active role in funding streams used for all modes of transportation. We continue to demonstrate that effort through a number of joint partnerships with our member communities in strategic planning and implementation of our *Wasatch Choice for 2040* vision achieved through the HUD Sustainability Grant and implementation of the long range transportation plans approved through the Wasatch Front Regional Council (our local MPO). Additionally Salt Lake County is in the process of an integrated planning effort to link local active transportation plans to the regional network under the direction of our Office of Regional Development.

UTA in collaboration with its regional partners has developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region,

particularly in disadvantaged communities. As a partner on the project we express our commitment and strongly request that the U.S. Department of Transportation fund UTA's TIGER application for the ICARO project.

Sincerely,

Ben McAdams

Mayor

Salt Lake County

#### **COUNTY MANAGER**

THOMAS C. FISHER

April 20, 2016

Thomas C. Fisher, County Manager Summit County P.O. Box 128 Coalville, UT 84017

Mr. Anthony Foxx Office of the Secretary of Transportation U.S. Department of Transportation 1200 New Jersey Ave SE Washington, DC 20590

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

Honorable Secretary Foxx:

I am writing to express Summit County's commitment to provide a bike share program and paved trail connection to the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

Part of the Wasatch Back, Summit County is home to nearly 40,000 residents living in both rural and small urban settings. Our County contains both the largest ski resort in North America and some of the best farmland in the state. In the last ten years, we've experienced job growth of over 40 percent. UTA has been and continues to be an important partner in providing a key transit link to our locals, visitors, and workers.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. As a partner on the project we express our commitment to the project we strongly request that the U.S. Department of Transportation fund UTA its regional partner's TIGER application for the ICARO project.

Sincerely,

Thomas C. Fisher County Manager

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

## **Honorable Secretary Foxx:**

We are writing to express Salt Lake City's commitment to pledge \$1,420,000 in matching funds to the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

Salt Lake City is committed to serving the needs of our residents and visitors by providing safe and efficient transportation options. The ICARO grant application includes three critical projects that will remove barriers between east and west side neighborhoods. These projects have dual benefits of improving job access for people in low income neighborhoods, and improving safety conditions for walking and bicycling through freight and commuter rail barriers. These projects also support our collaboration with UTA to improve access to transit.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. As a partner on the project we express our commitment to the project we strongly request that the U.S. Department of Transportation fund UTA its regional partner's TIGER application for the ICARO project.

Sincerely,

Jacqueline M Biskupski

Bradley D. McIlrath Murray City Corporation 4646 South 500 West Murray, UT 84123

Mr. Anthony Foxx Office of the Secretary of Transportation U.S. Department of Transportation 1200 New Jersey Ave SE Washington, DC 20590

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

### **Honorable Secretary Foxx:**

I am writing to express Murray City's commitment to provide 50% of the estimated cost for the State Street overpass, 20% of the cost to install bike lanes along 500 West from 4500 South to Vine Street, and 20% of the cost to complete the multi-use path along Big Cottonwood Creek (Murray North Trax Station) to the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

Murray City is a local municipal organization located in the center of the Salt Lake Valley with an estimated population of 48,000 people. Murray is the home of Intermountain Health Cares' Intermountain Medical Center that is located east of the Murray Central Station. This station is the only station in the Salt Lake Valley, outside of Salt Lake City, that brings together commuter rail, light rail, and multiple bus routes. Murray also includes two other UTA transit stations with the Murray North Trax Station and the Fashion Place West Station. Every station provides access to local and regional trail systems with the Murray North and Central Stations envisioned for continued Transit Oriented Development in the coming years. The continued partnership with UTA is vital to the redevelopment of these areas and the historic Murray Downtown area located northeast of the Murray Central Station.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. As a partner on the project we express our commitment to the project we strongly request that the U.S. Department of Transportation fund UTA its regional partner's TIGER application for the ICARO project.

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

Honorable Secretary Foxx:

I am writing to express Clearfield City's commitment to provide matching funds in the amount of \$79,946 to the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

Clearfield City was one of the last communities to be settles in northern Davis County. With a population of just over 30,000 Clearfield showcases quality municipal services, a community that is livable with a thriving economic base and is home of jobs and industry. A comprehensive study by several MPOs (Metropolitan Planning Organizations) substantiated a regional relationship with Clearfield and UTA, including all of the communities within northern Davis County, Utah. Clearfield boasts a front runner station serving commuter rail patrons up and down the Wasatch Front. This station is owned and operated by UTA. The City also has a long history of collaboration allowing us, our neighboring cities and UTA great success over the years. These projects will, along with our past successes continue to strengthen our regional approach to transit and increased mobility.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide

RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

Honorable Secretary Foxx:

I am writing to express Farmington City's commitment to provide matching funds of at least 25% or more, with UTA to provide another 10 % match, to the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Reginal Opportunities (ICARO) project.

Farmington City is located 18 miles north of Salt Lake City, between the Wasatch mountains and the Great Salt Lake at the confluence of several major transit facilities. A very successful TOD project, Station Park, now exists next to a UTA commuter rail stop. The TIGER Grant will benefit Farmington in many ways and provide residents better access to transit and the greater UTA system. We have enjoyed a long standing partnership with UTA for several decades.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

Honorable Secretary Foxx:

I am writing to express the City of Midvale's commitment to support and provide matching monetary funds to the Utah Transit Authority's (UTA) TIGER VIII application for the First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO) project.

The City of Midvale, a six square-mile municipality located centrally within the Wasatch Front Valley, has been working extensively with UTA and other agencies to create a continuous and functional active, pedestrian transportation plan. Some initial projects proposed within our jurisdiction, pending approval of the UTA TIGER VIII Application, would be improving our pedestrian crossings at transit-oriented stops, reconstruction of pedestrian sidewalks, installation of and improvements to bicycle lanes, and other amenities.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities. RE: Letter of Commitment for UTA TIGER VIII Application: First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)

#### Honorable Secretary Foxx:

I am writing to express **Layton City's** commitment to provide local matching funds and in-kind contributions to the Utah Transit Authority's (UTA) TIGER VIII application for the **First/Last Mile Connections: Improving Community Access to Regional Opportunities (ICARO)** project.

Layton City has a long history of cooperation and partnerships with Utah Transit Authority for the development of the FrontRunner commuter rail station in our community. The station and surrounding areas are located in our Mixed-Use/Transit Oriented Development (MU-TOD) zoning district and a redevelopment area. The projects proposed with this grant application will improved and enhanced pedestrian and bicycle access to the station area, which is critical to the long term vision for this portion of our community.

UTA in collaboration with its regional partners have developed a comprehensive plan to solve one of the biggest barriers to transit access, the need for the first/last mile connections. The ICARO project will leverage federal, state and local funds with TIGER grant funds to provide meaningful access to the transit system and greatly improve air quality, safety, and access to job centers, educational opportunities and public services for the citizens in the Wasatch region, particularly in disadvantaged communities.
